Chapter 272: The Infinite Army of the Shadow God

---

1. The Limitless Expansion

Sung Jin-Woo’s ascension had reached a point where his armies were no longer measurable by conventional terms:

Centillions Beyond Centillions:

His forces multiplied endlessly, reaching numbers so vast they surpassed all mortal comprehension.

Shadow soldiers, dark heavenly soldiers, Shadowkins, Dark Apostles, Shadow Lords, and Fiery Dragon Lords formed the core of this infinite military might.

Inner Worlds as the Source:

The 1,100,001 inner worlds served as an endless production line for troops.

Time dilation ensured accelerated growth and training: 1 second outside equals 1 million years inside, allowing Sung Jin-Woo to develop his armies to perfection.

---

2. Materialized Forces

Sung Jin-Woo’s mastery of shadow manipulation and divine creation had resulted in unprecedented forces:

Centillions of Materialized Shadow Soldiers:

Each shadow soldier was crafted with the utmost precision and infused with divine power.

Their ranks ranged from basic foot soldiers to elite generals, each surpassing mortal standards of strength.

Centillions of Dark Heavenly Soldiers:

Born from refined primordial darkness, these soldiers were embodiments of destruction and resilience.

Their power began at S^{99}-Rank and reached incomprehensible heights under Sung Jin-Woo’s command.

---

3. Clones of the Shadow God

Sung Jin-Woo’s clones added another layer of overwhelming power:

1,100,011 Clones:

Each clone held 0.0000000000000001% of the original body’s power, which might seem insignificant, but even that fraction was enough to place them at S^{999999}-Rank strength.

These clones operated across realms, overseeing, guarding, and expanding the influence of the Shadow God.

---

4. Supreme Military Strength

Sung Jin-Woo’s army became the ultimate symbol of power in the multiverse:

A Power That Dwarfs All:

No other entity or faction, not even the combined forces of immortals, could rival this strength.

Even at their weakest, Sung Jin-Woo’s troops were leagues beyond the most powerful known beings, with some surpassing S^{99999}-Rank.

The Shadow God’s Omnipotence:

With all his forces connected to him, Sung Jin-Woo's power surged infinitely as his army grew.

His influence spanned realms, universes, and dimensions, ensuring his absolute dominance.

5. A New Era of Absolute Control

The overwhelming numbers and strength of Sung Jin-Woo’s forces marked the dawn of a new era:

Unrivaled Dominion:

With no weaknesses or challengers left, Sung Jin-Woo solidified his position as the supreme ruler of the multiverse.

His armies ensured peace and stability, but also stood as a deterrent against any who dared oppose the Divine Triad.

A Legacy Beyond Measure:

The infinite armies of the Shadow God became a legend, a testament to Sung Jin-Woo’s divine ascension and unparalleled power.

Sung Jin-Woo had transcended all limits, his armies and clones embodying his infinite potential. This chapter emphasized the unimaginable scale of his power and his role as the ultimate force in the multiverse.
